

Long Island Children's Museum

Field Trip to Long  
Island Children's  
Museum

My class and I will be going to the Long Island Children's Museum to explore and play! When we get there, we will see a big grey and orange building with a sign that says the LICM.

We will get out of the bus with our teacher, then we will go inside the big yellow doors.

Once we are inside we will put our coats on the cart with our teacher's name on it. We might have to wait a few minutes in the lobby until our teacher and tour guide are ready. I will try my best to wait patiently. Then we will meet our tour guide and follow them into the museum.

There are lots of fun exhibits at the museum! There are two floors to explore. Some exhibits might be closed because they are being fixed, but that is okay because I can visit another time.

Our tour guide will take us to a few different exhibits. When we get to each exhibit the tour guide will teach us a lesson, ask us questions and tell us any rules there might be. I will listen to the tour guide and stay with my class.

Sometimes we will have lunch at the museum. If we are having lunch at the Museum the tour guide and our teacher will bring us to the cafeteria.

When we are all done with our field trip the tour guide will bring us back to the lobby to get our belongings. I will stay with my teacher and follow them when it is time to go back on the bus. Then we will go back to school!
