A milestone.

Activities

Wendy's Children's Museum

The Welcome Gallery: Celebrate the museum's 50-year celebration with a trip through the history of the museum.

Proc/Sequence: Interactive-inspired activity for children aged 3-5 years, providing a fun play opportunity. The activity is inspired by the history and layout of the museum.

Develop: Visitors will enjoy building a replica of a train toy container, the featured exhibit in the museum.

The interactive play area offers a unique experience for children, allowing them to create their own museum displays and interact with the exhibits.

Integrate: Children are encouraged to use the museum as a platform to build their own pieces—no matter how big or small. The museum features interactive elements that cater to children's imagination and creativity.

Create: This area play area is designed to build on children's interest in trains and railroading history.

Provide: This area play area is designed to build on children's interest in trains and railroading history.

Cooperate/Explore: Interactive-inspired activity for children aged 3-5 years, providing a fun play opportunity. The activity is inspired by the history and layout of the museum.
