Long Island Children's Museum

LICM is a not-for-profit institution chartered by the New York State Board of Regents.

Long Island Children's Museum is a unique learning laboratory that inspires children and adults through interdisciplinary, hands-on, fun experiences. LICM believes that children learn best by seeing, touching, and doing. Exhibitions are designed with curious explorers (infants through 12 and their grownups) in mind.

To ensure your enjoyment and safety, as well as other guests:

- Adults must be accompanied by children.
- Children are to be attended at all times.
- Food is to be confined to the cafeteria. Vending machines are available.
- Strollers and stools should not be placed next to railings on the second floor.
- Climb-it@LICM: Children must be over the age of four and/or at least 42" tall to participate.
- Hand sanitizers are located throughout the museum.
- All Museum facilities are accessible to people with disabilities.
